

## Individual reflection

Week 7 | 18/5 - 22/5

.....

### **What do I want to learn or understand better?**

I still want to learn more about agile practices, especially about how to be a good scrum master. I was one of the 2 scrum masters this week, but I do not feel like I did anything special.

### **How can I help someone else, or the entire team, to learn something new?**

I'm not sure. The project is over now. I suppose I could teach my next group what I have learned about teamwork and web development (if applicable) during my next group project.

### **What is my contribution towards the team's use of Scrum?**

I have done the same things I have always done, but I suppose I should have done more since I was the scrum master.

### **What is my contribution towards the team's deliveries?**

I did my tasks and I actually completed them this week! Very good, since this was the last sprint.
