Individual Reflection week 5

What do I want to learn or understand better?
I want to improve on writing good tasks and acceptance criterias.

How can I help someone else or the entire team to learn something new?
I have previously worked with agile software development and Scrum during my summer jobs at Volvo Cars R&D department for Comfort Functions. Therefore, I am somewhat familiar to the process and that's one area where I can help the team.

What is my contribution towards the team's use of Scrum?
I have acted as ScM together with Jesper this week. I have also been involved in discussions and our regular meetings.

What is my contribution towards the team's deliveries?
I have implemented the pub map this week together with Jesper. Everything has worked out well and we delivered good software on time.
